- 0,17mm thick
- Acrylic adhesive
- Temperature resistant up to 105°C
- Provides noise reduction

Jupiter 5720 can be die-cut for custom made parts and is available in all dimensions but standard widths are:

- 19mm x 33m
- 25mm x 33m
- 50mm x 33m

CONSTRUCTION

APPLICATIONS

Jupiter 5720 is a commonly used tape for many industries when an application requires a tape that is smooth and provides an easy gliding surface or noise reduction. The tape is ideal for applications such as;

- Noise reduction in glass bottling plants
- Process industry
- During unwinding and rewind set-ups

USER GUIDELINES

To obtain optimal adhesion the surfaces must be clean and dry. Most frequent cleaning solvent is isopropyl/water (50:50 mixture) alcohol. Use safety instructions before using cleaners. Sometimes depending on surface a primer can be used to obtain a higher bonding force. Ideal temperature for tape application is between 21 °C and 38 °C.
