

# Surface Cleaners

## Wipes with Isopropanol for Adhesive Tapes

Created: 2007-10-29  
Updated: 2018-01-04

### GENERAL INFORMATION

---

Surface cleaners are soaked in isopropanol 70% and used to ensure that the product is free from all kind of dirt that can affect adhesion negatively. The wipes are single packed and available in boxes of 250 pieces.

Due to the alcoholic liquid, the wipes are flammable and may cause irritation to eyes. The vapours may cause drowsiness or dizziness. Riskphrases:

- R11 Highly flammable
- R36 Irritating to eyes
- R67 Vapours may cause drowsiness or giddiness

### USER GUIDELINES

---

Avoid contact with eyes. Ensure good ventilation. Contain and soak up with non-combustible absorbent material and place into sealed containers. Do not allow to enter waterways or drains. Keep away from oxidising agents, heat, sparks and open flames. Avoid spillage, skin and eye contact.

### APPLICATIONS

---

To obtain optimal adhesion the surfaces must be clean and dry. Most frequent cleaning solvent is isopropyl/water (50:50 mixture) alcohol. Use safety instructions before using cleaners. Sometimes depending on surface a primer can be used to obtain a higher bonding force.

## PRODUCT DATA

---

### Physical Data:

Wipe material:	Nonwoven 28g
Colour:	White
Liquid:	Isopropanol 70 %
Package size:	60 x 80mm
Wipe size:	190 x 140mm
Wipes/box:	250 pcs
Shelf life*:	24 months
Storage:	Good storage conditions are in room temperature. Not recommended for direct exposure to sunlight or ultraviolet light.
